

Sunship Earth Equipment List

The following is a list of items that are required at the Sunship Station. It is recommended that you **mark your name on all clothing and possessions** so that “lost” items can be “found” again. New clothing is strongly discouraged as a majority of the time will be spent outdoors and in the woods. **Make sure you have good, waterproof rain gear to keep you dry.** We will also be outside in the evenings and it can be cool, the bugs can be plentiful, and the rain may come... please bring appropriate clothes (long sleeves and pants, sweaters and jackets) to keep you warm and dry.

***Bring Whistle with cord to wear around neck and Sunship Earth ID (directions are on next page). These two items must be worn by all campers throughout the day!

Special Sunship Earth IDs

You receive a circle of wood which is to be your Sunship Earth ID which you will have with you all of the time at the Sunship Station (you wouldn't want to get busted by the *Border Patrol!*). Your ID is your symbol, and each of us is special and unique so we hope you will put a lot of time into creating a special Sunship Earth ID of which you will be proud. It should include the following items:

- * On one side write your first name in large letters— you may want to make them unique or decorative letters, but they should be easy to read. You may also want to add a little drawing or decoration to go with your name. Use any color you want, use lots of colors. Use markers, paints or crayons which will not be hurt by water!
- * On the second side do a picture of a favorite animal or plant, a scene in nature, etc., something to do with the natural world. Be creative!
