

# Winter Treasures Teacher Manual

## Appendix 2

These pages are masters for the activity sheets to be used as follow-through review for key ecological concepts that the students experienced on the trip.

- *Gifts for You from the Earth* (Review of Gifts Activity): These two pages briefly review the idea that all creatures have four basic needs to survive, Students are then asked to come up with an example of one creature including what it requires to meet its four basic needs.

# Gifts for Wild Creatures from the Earth

Pick one creature and draw and write in the boxes how the earth gives it what it needs to live.

**Water**  
Where does the creature get its water?

**Shelter**  
Draw the creature in the place where it lives.

**Air**  
Plants clean the air and help all creatures breathe. Draw the plants where the creature lives...

**HOME**

**Food**  
Write or draw what this creature eats...

# Gifts for You from the Earth

Remember the four gifts you found at the park in the boxes on the trail.  
The earth gives you the things you need. What are they?

**Water**  
Where does your water come from?

**Shelter**  
Draw the place where you live...

**Air**  
Plants clean the air and help people breathe.  
Draw some of the plants where you live...

**HOME**

**Food**  
Think of your favourite food. Name a plant or animal that it comes from...
